**Subject:** business follow up

Harry:

Very nice conversation last night. Thank you. Good to meet you. This memo provides the follow-up I promised you.

Not knowing your deep and lengthy history with TAE ([Tri Alpha Energy](#)), I contacted you because we thought you would be interested in the [PowerMasters™](#) video game series in an actors supporting role.

This is the business follow-up as promised:

- Check out: <http://www.energycite.com> It has everything laid out on the PowerMasters games series as proposed.
- Under “About” is 6 bullet point **Master Plan** at: <http://energycite.com/plan.php>
- **Elevator pitch** is one paragraph pitch for mission, need, and expected results at: <http://energycite.com/gameElevator.php>
- I have key patents in the utility industry smart meter and system topology which will couple the games to one’s utility meter providing a home energy dashboard with bill reconciliation. See patent explanations at: <http://fusion4freedom.us/patents/>
- Profits generated from the game and the licensing of the IP to the utility industry will be used to fund the energy consortium. Recurring annual revenue >500 million USD can be generated.
- This is intended to accelerate the private fusion projects under way and to provide significant milestone based “competitive awards.”
- As importantly it serves as an insurance policy to the financial backers of the firms in the event of commercial failure.

- **Summary of energy consortium at:**  
<http://energycite.com/endgame.php> Scroll down to numbered points 1-14 after “Therefore it is proposed” near the end.

We are looking for investors now. Small dollars set up as a loan. Details at: <http://energycite.com/opportunity.php> We leverage the initial loan funds through a very well-produced and managed Kickstarter program to generate > 4 million USD. Payback to the initial lender/investors is one year. Have flexibility on equity and long term kickers.

Fundamentally this is an entertainment style project and we believe you could help us raise the short term funds needed with Hollywood contacts.

It was for these two reasons I initially contacted you.

Thank you.

Regards,

TT
